

Your app: ai content generation app for pharma

Pharma Precision

Professional, Clean, Innovative

PRIMARY
#1A73E8
Medical Blue

SECONDARY
#5F6368
Clinical Gray

ACCENT
#FF6D01
Alert Orange

BACKGROUND
#F5F5F5
Soft White

SURFACE
#FFFFFF
Subtle Gray

TEXT
#202124
Deep Charcoal

Primary: Main navigation, primary buttons, key data visualization headers

Secondary: Secondary buttons, subtle UI controls, secondary text

Accent: Important notifications, highlights, FAB, progress indicators

Background: Main app background, providing clean and minimal canvas

Surface: Cards, modals, elevated components with slight elevation

Text: Primary text across all surfaces, ensuring high readability

DARK MODE: ☐ BG #121212 ☐ Surface #1E1E1E ☐ Text #E0E0E0

Accessibility: WCAG AA compliant with 4.5:1 contrast ratios between text and backgrounds

Best for: Professional medical AI tools, pharmaceutical research platforms

Molecular Insights

Scientific, Calm, Trustworthy

PRIMARY #2E7D32 Research Green	SECONDARY #00897B Soft Teal	ACCENT #9C27B0 Discovery Purple	BACKGROUND #F0F4F0 Pale Sage	SURFACE #FFFFFF Soft Mint	TEXT #1B5E20 Deep Forest
---	--	--	---	--	---------------------------------------

- Primary:** Primary navigation, main action buttons, data visualization
- Secondary:** Secondary interactions, toggle controls, supplementary elements
- Accent:** Highlights, important alerts, call-to-action elements
- Background:** Main app background, providing a calm, scientific atmosphere
- Surface:** Cards, panels, elevated content areas
- Text:** Primary text with excellent readability

DARK MODE: ☐ BG #121212 ☐ Surface #1E1E1E ☐ Text #B0BEC5

Accessibility: Ensures WCAG AA accessibility with carefully balanced color luminance

Best for: Research-oriented AI platforms, scientific content generation

Clinical Clarity

Modern, Precise, Intelligent

PRIMARY #0D47A1 Deep Azure	SECONDARY #455A64 Steel Blue	ACCENT #FF5722 Vibrant Coral	BACKGROUND #F7F9FC Soft Gray	SURFACE #FFFFFF Crisp White	TEXT #263238 Midnight Navy
---	---	---	---	--	---

- Primary:** Primary navigation, key interaction buttons, headers
- Secondary:** Secondary controls, supplementary interactive elements
- Accent:** Critical notifications, urgent actions, attention-grabbing elements
- Background:** Main application background, providing a clean workspace
- Surface:** Cards, modals, floating components
- Text:** Primary text with optimal readability

DARK MODE: ☐ BG #121212 ☐ Surface #1E1E1E ☐ Text #B0BEC5

Accessibility: Meets WCAG AA standards with high contrast text and background combinations

Best for: Enterprise pharmaceutical AI tools, clinical research platforms

Design Tips

1. Use color to differentiate between AI-generated and human-verified content, creating visual trust signals
2. Implement subtle color gradients in data visualization to represent confidence levels or research stages
3. Create a consistent color-coding system for different types of pharmaceutical content (research, clinical trials, drug information)
